the brightest and most innovative of people**

## ABOUT US

Inbase Technology Pvt. Ltd have been designing, developing, branding, optimizing, and creating software for a number of clients, belonging to various industry dimensions. Implementing the latest design ideas and innovative technologies.

Inbase Technologies and its sister firm, CityWeb, provide a complete web solution for your company to improve its online presence. From the past 10 years, along with a team of merely 50 but extremely innovative people, Inbase Technologies has been successful in transforming the obsolete attitudes of many enterprises, working in different web application, toward adopting the current web trends. Many significant foundations have flourished in Nagpur thanks to the implementation of brand-new online technologies perfected by our companies, CityWeb and Zee SEO.

# MEET THE TEAM

**Vinay Channe**

CEO

Since 2017

Having begun his early career in Sales and business development, Vinay always had ambitions to create his own company. With this determination in mind he formed his first business at the age of 22 and joined various industries in technology then in 2017 joined Inbase Technologies Pvt. Ltd. Located in Nagpur (India). Vinay started to grow the business and build a dedicated team around him.

With Vinay's meticulous eye for detail and ensuring customer service is always the primary focus, Inbase Technologies Pvt. Ltd. has gone on to be the multi-million INR revenue business it is today.

Day-to-day you will find Vinay still supporting many of our long-standing customers as well as working closely with the management team in developing future strategies.

**Yogesh Kale**

FOUNDER & DIRECTOR

Since 2010

Technical Director Yogesh founded His Inbase technologies Pvt. Ltd. (City web) IT company after graduate from well known university. and raised fund for his start up Inbase technologies Pvt. Ltd. (City web) and promoted as a Chief Technical Officer. Bringing his invaluable technical experience to the business provided Inbase with the technical knowhow to develop its first marketplace application and venture into the initial steps of ERP.

Now, Yogesh is responsible for the day-to-day running of our project, backup platform and developing new products and services for customers. He also provides support to our senior technical team to assist with the design of new customer solutions. Yogesh enjoys spending time with the family, reading, playing the odd round of golf (fair weather only).
